### INSTRUCTIONS:

**IMPORTANT: Please fill out completely.** It is very important that you **print** or type clearly and mark an "X" in every appropriate box.

Begin on this side by filling in the case information. When entering support order information please list the oldest order first and the most current order last. Use additional sheets if there are more than three orders.

Once page one is completed please turn over and start on the back. Begin with the left side and locate the box with the appropriate number of states issuing support orders. Enter an "X" in the box and list the issuing state(s). If more than one state, determine how many have a party, or are a child's home state and mark an "X" in the box and list the state(s). Determine if any of those issuing state is the child's state of residence for the last six months. If "yes" list the child's state. If "no" determine which order is most recent.

Next move to the right to determine if an order is controlling.

After identifying the controlling order, move to the right to identify if state list to the far left has CEJ. If only one state has issued an order, determine if the party or child is in the issuing state and mark "X" in the appropriate box to determine CEJ. Once the completed move to the right and identify the desired remedy.
